Forecast for Wednesday 01 Jun 2022

Weather: Scattered heavy and possibly showers will develop during the early hours, these clearing eastwards shortly after dawn leaving more isolated light showers in their wake. Sunny spells and isolated light showers continuing until the middle of the day, but becoming dry by mid-afternoon with lengthening sunny intervals, and with skies clearing by evening.

Chance of cloud-free hill tops above 600m: 90% at first improving to 100% mid-morning onwards.

Low cloud and visibility: Areas of cloud occasionally covering slopes above 400-500m during the early hours and at first Wednesday morning, mainly in association with showers. Cloud lifting to nearer 900m by mid-morning and remaining clear of the summits during the rest of the day. Visibility beneath cloud generally good, but deteriorating to locally moderate or poor in showers.

Meteorologist's View

UV levels will be high in any sunshine during the afternoon, and sun protection is recommended to protect your skin.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
14:00 on Tue 31 May 2022	0mm	1.8mm	1.8mm

Forecast for Thursday 02 Jun 2022

Weather: Early valley mist and shallow fog patches will clear soon after dawn leaving a fine start to the day with largely sunny skies. Scattered cloud will build mid-morning onwards giving occasionally cloudier skies and the risk of the odd light shower for a time during the middle of the day. Dry with clear spells in the evening.

Maximum wind: Southeasterly 10-15mph.

Chance of cloud-free hill tops above 600m: 100%

Low cloud and visibility: Cloud remaining clear of the summits throughout the day. Locally poor visibility in any mist or shallow fog at first otherwise excellent visibility at all levels.

Temperature: **Valleys:** Plus 4 Celsius becoming plus 17 Celsius.
At 600m: Plus 8 Celsius becoming plus 12 Celsius.
Freezing level: Above the summits.
